Hospital Indemnity Insurance

Protection for hospital stays when a sickness or injury occurs

Think About This

Americans pay nearly 60% more for hospital stays than patients in Europe and Canada[†]

\$11,700
The average cost of a 24-hour hospital stay in the U.S.^{††}

Two-thirds of Americans received an unexpected medical bill following a hospital stay in 2020^{†††}

A sickness or injury could land you in the hospital. Your medical insurance may only cover some of it, leaving you to pay for deductibles and coinsurance fees. Hospital Indemnity Insurance can help ease your financial burden so you can focus on recovery.

Here's How It Works

- Select the coverage that's right for you and your family
- If you or a family member requires a hospital stay, you file a claim
- A cash benefit is direct deposited or a check is mailed and can be used however you wish*

Protecting Your Finances

You've worked hard for your savings – don't let a hospital bill wipe them out.

- Protect your checking and savings
- Don't dip into your 401(k)

Meeting Your Needs

- Guaranteed Issue coverage with a Pre-Existing Condition Limitation*
- Coverage can include your dependents
- Premiums are affordable and can be conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details
